Mr. Matt Lakin
Acting Director, Air Division
United States Environmental Protection Agency Region 9
75 Hawthorne Street
San Francisco, CA 94105

Dear Mr. Lakin:

This is to advise you that the Bay Area Air Quality Management District is issuing the renewal Major Facility Review permit for the following facility.

Facility	Facility Name	Applications	Permit Engineer	City	County
A0016	Phillips 66 – San Francisco Refinery	27798, 21850, 22672, 26487, 27532, 27560, and 28688	C. Lee	Rodeo	Contra Costa

The 30-day public comment period for the proposed renewal permit ended on December 31, 2017 and the 45-day EPA review period ended on January 17, 2018. The District did not receive any comments on the proposed permit from EPA, ARB, or the public.

However, comments were received from Phillips 66 identifying some errors in applicability in Section IV of the permit. In response to those comments, pressure vacuum valve requirements of Regulation 8, Rule 5 were removed from Tables IV-S, BB.6, BB.8, BB.9, BB.11, BB.14, BB.16, and BB.18 because the tanks covered by those tables are not equipped with such valves. Also, Regulation 8, Rule 44 requirements for owners of marine vessels were removed from the permit because Phillips 66 does not own any of the vessels that berth at their marine terminal.

The District has decided to issue the permit. The final permit and statement of basis can be viewed on the BAAQMD website at <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. We will also send the final permit to you via the Electronic Permit Submittal System. If you have any questions regarding this permit, please call Dennis Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely yours,
